Arizona Tools
For Seniors

Arizona State Library and Archives launched a new internet resource for those affected by the recession. Tools for Tough Times <http://www.lib.az.us/about/helpinfo.html> is a one-stop site providing links that can help all Arizonans. Included are tools for work, parents, finances, housing, health and specific tools for seniors. Since its introduction and promotion to libraries earlier this year, this website has been added to training sessions by libraries in some of the rural areas of the state. As government services are change, this site will be updated.
