## Observations and Trends from the 2012-13 Arizona Public Library Data Survey

Public and tribal libraries in Arizona, like their counterparts across the United States, have worked hard in recent years to redefine their services in a digital age, and most recently, to reach out to those who need additional information services and skills as a result of the recession that began in 2008. That recession has left Arizona's libraries with fewer dollars and less staff with which to provide resources and services. The result has been that library services peaked in 2010 as they responded to patron needs, but have recently seen drops in visitation and circulation as they haven't had the resources to continue responding to those needs. Program numbers remain strong, as libraries increasingly look to serve their communities in diverse ways, and electronic collections are growing.

A total of 92 libraries are included in this report; one less than in 2012. Oro Valley Public Library officially became a branch of Pima County Public Library, and is no longer completing a separate report. Neither the libraries in Morenci nor Wickenburg reported data this year because Morenci was transitioning to a private library, and Wickenburg was closed for an extended period. A number of tribal libraries either did not submit reports, or submitted only partial numbers. Some tribal libraries choose not to share this information.

### Budget

During the last four years, Arizona's libraries have seen their operating revenues drop from \$28.90 per person to \$26.38 per person. Capital projects have dried up as projects earmarked with bond money from the mid-2000s were completed. Libraries reported spending only \$2.1 million on capital projects across 220 library buildings in 2013. In comparison, capital projects totaled \$67 million in 2009. Although overall staffing grew slightly from 2009 to 2012, it turned downward in 2013, and the number of librarians with master of library science degrees declined as well.

Not only has overall operating revenue dropped, but local funding, which comes from municipalities, tribal and county governments, dipped 3.7 percent from 2012 to 2013. In Arizona, these funding sources provide for about 95 percent of operating expenditures, including salaries and day-to-day operations. State and federal funding fluctuates, and is usually project based.

### Collections

The reported number of library materials (books, DVDs, CDs, and more) has decreased from 2000, when there were 2 items for every Arizonan, to 2013, when there are 1.5 items (although this past year saw a slight uptick). Some of this drop may be attributed to the move from physical to digital collections. A physical book belongs to a single library system, and is easy to count for reporting purposes. All of the physical books in all of the libraries can be added together to arrive at a total number of books. In comparison, downloadable books, movies and audios, are often shared by a number of libraries, allowing patrons access to a large collection. However, when a group of libraries shares a collection of books, it becomes more challenging to accurately reflect the collection when aggregated to the state level.

Similar issues are impacting print serial subscriptions (primarily magazines). In 2008,<sup>i</sup> Arizona public libraries collectively reported almost 19,000 subscriptions. In 2013, that number had dropped to a little more than 14,000. Yet, almost all Arizona libraries have access to hundreds of online magazines through traditional library databases and through the popular online magazine service, Zinio. These numbers are not reflected in the totals.

Libraries are reporting that they are spending a greater percentage of their collection budgets on electronic materials. In 2008, 15 percent of the \$26.9 million spent on collections went to electronic resources. In 2013, that percentage had increased to 25 percent.

## Service Measures

Per capita calculations for circulation and library visits have begun to dip, mirroring a national trend. Beginning in 2005<sup>ii</sup>, both circulation and library visits began increasing annually, reaching a high point in 2010. Since then the numbers have begun a decline. Circulation is down 11 percent from 2010 to 2013; and visits are down eight percent. These trends are mirrored in declines in per capita operating revenue and expenditures. The Institute of Museum and Library Services has tracked a similar national trend in visitation and circulation through 2011.<sup>iii</sup>

Total circulation dropped from 50 million to 47 million in the last year, a 6.5 percent decline. Much of the change can be tracked to Phoenix Public Library, which saw its circulation drop from 14 million to 11 million when they put limits on the number of times an item could be renewed. While electronic circulation continues to grow, and is included in the overall circulation numbers, it has not offset the decline in physical circulation. Additionally, not all libraries are reporting all digital circulation.

The Arizona survey asks about reference transactions, in large part because it is a national measure. However, a number of Arizona libraries, including the three largest systems (Maricopa County, Pima County and Phoenix) no longer collect this data, and do not report it.

## Programs

A bright spot is that program attendance continues to grow at Arizona's public libraries. The 61,494 program hosted by libraries had a combined attendance of 1.3 million. Children's programs make up about half of the offerings, and attract about 73 percent of the total audience. The only programming area to see a decline from 2012 was young adult/teen program. The number of teen programs dropped 3.6 percent, from 5,492 to 5,303, and the attendance dropped 10.2 percent, from 91,774 to 83,285.

## Cautions and Considerations

A comparison between the 2009 per capita numbers on the Five-Year Trends (see page 6) and the data presented in Arizona Public Library Statistics 2008-2009 (published in 2010) for the same time period shows some discrepancies despite reporting on the same survey. The per capita numbers presented in this report for 2009 are slightly lower than the earlier report. The Arizona State Library changed the vendor it contracts with to provide a collection and reporting platform from Baker and Taylor's Bibliostat to Counting Opinions' LibPAS in 2010. About ten years of data was migrated from one platform to another. Methodological changes in which data was included resulted in differences to some calculated fields.

The Institute of Museums and Library Services is expected to release a national report on FY2013 in 2016. The information presented in this report, and the information presented in that future report, may have some minor differences. If a participating library indicates that they provide a service/collection, but don't have the information to respond to the data, IMLS imputes that data at the unit level. The imputed number is included in statewide totals and per capita number. For the purposes of this report, no imputed data has been included. If a library did not provide a response to a measure, a zero was calculated into the state total – which decreases the statewide total and creates a lower per capita number.

## Historic Background and Finding Previous Data Sets

The Arizona State Library has been collecting public library statistics since at least 1966. The State Library joined with other state libraries in the U.S. beginning in 1989 to collect data at the national level. The national survey was administered by the National Center for Education Statistics, with the partnership of the National Commission on Libraries and Information Science, through 2007, and by the Institute of Museum and Library Services since then.

The survey includes both questions required by the federal survey, and Arizona-only questions that help Arizonans better understand how their libraries serve their communities.

Information from previous collections can be found in several places:

Copies of the Arizona reports are available through the State Library of Arizona; a number of the reports have been digitized and are available on the Arizona Memory Project, <http://azmemory.azlibrary.gov/>.

Physical copies may be found at the State Library of Arizona, 1700 W. Washington, Third Floor, Phoenix, AZ 85007. For more information, see <http://www.azlibrary.gov/sla>.

**Arizona State Library, Archives and Public Records**  
**ARIZONA PUBLIC LIBRARY DATA REPORT**  
With Definitions and Notes  
**Reporting Period: July 1, 2012 to June 30, 2013**

The Arizona State Library, Archives and Public Records participates in a national public library data collection system known as the Public Library Survey. The purpose of this system is to ensure the collection of comparable data in all states. The data is used for planning, research, evaluation, and policymaking decisions by federal, state, and local officials, professional associates, researchers, educators, local practitioners, and other interested users.

Please complete one report for your library or library system. The first nine sections ask administrative entity (single-entity library or library system) questions about legal structure, staffing, revenue, expenditures, electronic access. Then, section 10 asks for outlet (building or bookmobile) information on library materials and services. County Librarians: please complete a report for the library district office.

Definitions are important to ensure comparability of data from different libraries and states. For the most part, these definitions have been agreed to on a national basis. It is critical that you read and respond according to the definitions.

**Reporting libraries should not leave any items blank.** You should enter "0" if the appropriate entry for an item is zero or "none." Enter zero if you do not have this item, or do not spend money on this budgeted item. If you do not know the answer, or do not collect this data, check -1 (negative one). Educated estimates are important if exact data is not available. Indicate that your figure is an estimate by entering a federal note.

Items that ask for dollar amounts must be rounded to the nearest whole dollar. However, items such as FTE staff and hours of service may be reported with up to two decimal places.

Reports must be submitted via this on-line form, **NO LATER THAN NOVEMBER 8, 2013.**

Please follow the data report instructions and definitions for completing each data item.

Please answer the ENTIRE SURVEY only as it relates to the institution listed in question 1.03.

Select one of the following:

MA – Administrative Entity with Multiple Direct Service Outlets where Administrative Offices are Separate. An administrative entity that serves the public directly with two or more service outlets, including some combination of one central library, branch(es), bookmobile(s), and/or books-by-mail only. Note: Changes are likely to result, for example, when a municipality annexes land, when one municipality in a county becomes either an independent city or its own county necessitating its exclusion from the first county’s geography, or when an administrative entity contracts to provide public library service for some additional geographic area other than the geographic area for which it was established (e.g., a municipal library contracts to serve county residents).

### 3.07 Population of the Legal Service Area (State Supplied)

The number of people in the geographic area for which a public library has been established to offer services and from which (or on behalf of which) the library derives revenue, plus any areas served under contract for which the library is the primary service provider.

Note: Each administrative entity may report either no central library or one central library. No administrative entity may report more than one central library. In the administrative entity file, this simply means reporting “0” or “1” for central library. Where two or more libraries are considered “centrals” for state or local purposes, one central library and one or more branch libraries should be reported to FSCS. If you wish to identify a central library in the outlet file, identify the library with the largest collection as the central library for FSCS purposes, and report all others as branches. Where there are several co-equal outlets and no principal collection, report all such outlets as branches, not central libraries.

This is the calculated value of the "other" expenditures.

**8.14 Total: Operating Expenditures (Calculated)**

This is the calculated value for all operating expenditures.

**8.15 Total: Capital Expenditures**

Report major capital expenditures (the acquisition of or additions to fixed assets). Examples include expenditures for (a) site acquisitions; (b) new buildings; (c) additions to or renovation of library buildings; (d) furnishings, equipment, and initial book stock for new buildings, building additions, or building renovations; (e) library automation systems; (f) new vehicles; and (g) other one-time major projects. Include federal, state, local, or other revenue used for major capital expenditures. Only funds that are supported by expenditure documents (e.g., invoices, contracts, payroll records, etc.) at the point of disbursement should be included. Estimated costs are not included. Exclude expenditures for replacement and repair of existing furnishings and equipment, regular purchase of library materials, and investments for capital appreciation. Exclude contributions to endowments, or revenue passed through to another agency (e.g., fines). Funds transferred from one public library to another public library should be reported by only one of the public libraries.

**SECTION 9: ELECTRONIC ACCESS AND INFORMATION**

**9.01 ILS Vendor**

Please list your ILS vendor, if applicable.

**9.02 Number of Online Catalog Searches**

Total number of searches made to the library's online catalog, either in the library or remotely.

**9.03 Number of Visits to the Library's Website**

Visits represent the number of individual sessions initiated by all visitors to your site. A visit/session ends when someone closes their browser or stops loading webpages on the website for a period of time (typically when more than 30 minutes elapses between page views, but this is arbitrary).

A visit is usually determined by each user's unique IP address, and/or their login account name when they are accessing secure parts of the website. The details for website visits/sessions are contained within the access log file for the web server(s) and may be accessible using log file analysis or web analytics reporting tools.

Virtual visits include a user's request of the library website or catalog from outside the library. A single visit to a website may involve loading of numerous webpages or gratuitous elements (images, style sheets, etc.).

**9.04 Do you subscribe to Zinio?**

Please let us know if your library has a subscription to Zinio.

**9.05 Do you subscribe to any OCLC services?**

Please let us know if you have any subscription to one of OCLC's services.

**9.06 If yes, which services do you subscribe to?**

If you answered yes to the above question, please list which services you subscribe to (Examples: Accessions List, Batchload, Bibliographic Record Notification, CAMIO, CatExpress, Connexion, EZproxy, eSerials Holdings, FirstSearch, GovDoc, ILLiad, Local holdings maintenance, OAlster, Odyssey, Z39.50 Cataloging, etc).

**LICENSED DATABASES**

Report the number of licensed databases (including locally mounted or remote, full-text or not) for which temporary or permanent access rights have been acquired through payment by the library (directly or through a cooperative agreement within the state or region), or acquired by formal agreement with the State library. A database is a collection of electronically stored data or unit records (facts, bibliographic data, abstracts, texts) with a common user interface and software for the retrieval and manipulation of the data.

Note: The data or records are usually collected with a particular intent and relate to a defined topic. A database may be issued on CD-ROM, diskette, or other direct access method, or as a computer file accessed via dial-up methods or via the Internet. Subscriptions to individual electronic serial titles are reported under Current Electronic Serial Subscriptions. Each database is counted individually even if access to several databases is supported through the same vendor interface.

Report the number of licensed databases acquired through payment or formal agreement, by source of access:

**9.07 Databases: Local/Other Cooperative Agreements**

This is the total number of databases made available based on the constraints listed above.

**9.08 Databases: State (State Supplied)**

This is the number of databases the State Library supplies.

**9.09 Total: Databases (Calculated)**

This is the calculated total of the values entered above.

**SECTION 9A: DOWNLOADABLE E-BOOKS**

E-books are digital documents (including those digitized by the library), licensed or not, where searchable text is prevalent, and which can be seen in analogy to a printed book (monograph). Include non-serial government documents. E-books are loaned to users on portable devices (e-book readers) or by transmitting the contents to the user's personal computer for a limited time. Include e-books held locally and remote e-books for which permanent or temporary access rights have been acquired. Report the number of physical or electronic units, including duplicates, for all outlets. For smaller libraries, if volume data are not available, the number of titles may be counted. E-books packaged together as a unit (e.g., multiple titles on a single e-book reader) and checked out as a unit are counted as one unit.

Report the number of units. Report only items the library has selected as part of the collection (exclude public domain / uncopyrighted e-books that have unlimited access).

NOTE: For purposes of this survey, units are defined as "units of acquisition or purchase". The "unit" is determined by considering whether the item is restricted to a finite number of simultaneous users or an unlimited number of simultaneous users.

Finite simultaneous use: units of acquisition or purchase is based on the number of simultaneous usages acquired (equivalent to purchasing multiple copies of a single title). For example, if a library acquires a title with rights to a single user at a time, then that item is counted as 1 "unit"; if the library acquires rights to a single title for 10 simultaneous users, then that item is counted as 10 "units"

Unlimited simultaneous use: units of acquisition or purchase is based on the number of titles acquired. For example, if a library acquires a collection of 100 books with unlimited simultaneous users, then that collection would be counted as 100 "units".

**SECTION 9B: DOWNLOADABLE AUDIO BOOKS  
AND  
SECTION 9C: DOWNLOADABLE MUSIC**

These are downloadable electronic files on which sounds (only) are stored (recorded) and that can be reproduced (played back) electronically.

Report the number of units. Report only items the library has selected as part of the collection.

NOTE: For purposes of this survey, units are defined as “units of acquisition or purchase”. The “unit” is determined by considering whether the item is restricted to a finite number of simultaneous users or an unlimited number of simultaneous users.

**SECTION 9D: DOWNLOADABLE VIDEO**

These are downloadable electronic files on which moving pictures are recorded, with or without sound. Electronic playback reproduces pictures, with or without sound, using a television receiver, computer monitor or video-enabled mobile device.

Report the number of units. Report only items the library has selected as part of the collection.

NOTE: For purposes of this survey, units are defined as “units of acquisition or purchase”. The “unit” is determined by considering whether the item is restricted to a finite number of simultaneous users or an unlimited number of simultaneous users.

**SECTION 10A: OUTLET INFORMATION**

This section asks for outlet (building or bookmobile) information on library materials and services.

- If your library is a single outlet (has only one building and no bookmobile), you will complete one outlet record for the library.
- If your library has multiple facilities, complete an outlet record for each central, branch, bookmobile and direct mail service. If your library has a separate administrative office that has collections or services to the public, be sure to complete an outlet record for the administrative office. If the administrative office does not have collections or services to the public, you don't need to complete an additional outlet record.

*IDENTIFICATION*

**10A.01 FSCS ID (IMLS Assigned)**

This is the identification code assigned by IMLS. Outlets are assigned the same FSCS ID as the administrative entity to which they belong, with a unique three-digit suffix added to distinguish each outlet.

**10A.02 LIB ID (State Assigned)**

This is the state-assigned identification code for the outlet. Libraries may not edit this.

**10A.03 Library Name**

This is the legal name of the outlet.

Note: Provide the legal name of the outlet. Do not use acronyms. Do not abbreviate the name unless it exceeds the WebPLUS field length of 60 characters. Avoid abbreviations at the beginning of the name and do not punctuate abbreviations.

**10A.04 Main Number**

This is the telephone number of the outlet, including area code. Note: Report telephone number without spacing or punctuation. If the outlet has no phone, check "-3" (for "Not Applicable").

**ADDRESS****10A.05 Street Address**

This is the complete street address of the outlet.

Note: Do not report a post office box or general delivery. For a bookmobile that operates from an administrative entity, branch, or central library, report the address of the administrative entity, branch or central library from which it operates. For a bookmobile that is itself the administrative entity, report the address where the bookmobile is parked at night.

**10A.06 City**

This is the city or town in which the outlet is located.

**10A.07 ZIP Code**

This is the standard five-digit postal ZIP code for the street address of the outlet.

**10A.08 County**

This is the county in which the outlet is physically located.

**CLASSIFICATION AND STRUCTURE****10A.09 Outlet Type Code**

An outlet is a unit of an administrative entity that provides direct public library service. Select one of the following:

BM – Books-by-Mail Only. A direct mail order service which provides books and other library materials. Books-by-mail typically serves rural residents, the disabled, the homebound, and others without access to another type of public library outlet. Requests for materials are usually received by mail and by telephone only. Only books-by-mail services that are housed separately from any other type of direct public service outlet (that is, central library, branches, or bookmobiles) should be coded here.

BR – Branch Library. A branch library is an auxiliary unit of an administrative entity which as at least all of the following:

1. Separate quarters;
2. An organized collection of library materials;
3. Paid staff; and
4. Regularly scheduled hours for being open to the public.

BS – Bookmobile(s). A bookmobile is a traveling branch library. It consists of at least all of the following:

1. A truck or van that carries an organized collection of library materials;
2. A paid staff; and
3. Regularly scheduled hours (bookmobile stops) for being open to the public.

Note: A separate outlet record may be created for each bookmobile. You may wish to create separate outlet records for individual bookmobiles if (1) they have different addresses and/or (2) they have different Metropolitan Status Codes. Alternatively, a bookmobile outlet record may include more than one bookmobile.

**CE – Central Library.** This is one type of single outlet library (SO) or the library which is the operational center of a multiple-outlet library (MO or MA). Usually all processing is centralized here and the principal collections are housed here. Synonymous with main library.

Note: Each administrative entity may report either no central library or one central library. No administrative entity may report more than one central library. If you wish to identify a central library in the outlet file, identify the library with the largest collection as the central library for FSCS purposes, and report all others as branches. Where there are several co-equal outlets and no principal collection, report all such outlets as branches, not central libraries.

**10A.10 Square Footage of Outlet**

Provide the area, in square feet, of the public library outlet (central library or branch). Report the total area in square feet for each library outlet (central library or branch) separately. This is the area on all floors enclosed by the outer walls of the library outlet. Include all areas occupied by the library outlet, including those areas off-limits to the public. Include any areas shared with another agency or agencies if the outlet has use of that area.

**10A.11 Number of Bookmobiles in the Bookmobile Outlet Record**

The number of bookmobiles in the bookmobile outlet record.

Note: A bookmobile outlet record may include one or more bookmobiles. Complete this data element only if the outlet record is of the type BS – Bookmobile(s). A bookmobile is a traveling branch library. It consists of at least all of the following:

1. A truck or van that carries an organized collection of library materials;
2. A paid staff; and
3. Regularly scheduled hours (bookmobile stops) for being open to the public. County vehicles in use, not the number of stops the vehicle makes.

**10A.12 Type of Internet Connectivity**

Enter a description of your library's type of connection:

- DSL
- Cable
- Leased Line
- Municipal Networks
- State Network
- Satellite
- Fiber
- Wireless (i.e., municipal wireless)
- Other (please specify)

**10A.13 Maximum Speed of Connection**

Enter your library's connection speed:

- Less than 256Kbps
- 257Kbps – 768Kbps
- 769Kbps – 1.4Mbps
- 1.5Mbps
- 1.6Mbps – 3.0Mbps
- 3.1Mbps – 6.0Mbps
- 6.1Mbps – 10Mbps
- Greater than 10 Mbps

**10A.14 Wireless Internet Access**

Please indicate whether this outlet offers wireless access to the Internet.

## SECTION 10B: OUTLET DATA

This section of the survey collects data on selected types of materials. It does not cover all materials (i.e., microform, scores, maps, and pictures) for which expenditures are reported elsewhere. Under this category report only items the library has acquired as part of the collection, whether purchased, leased, licensed, or donated as gifts.

### *COLLECTION INFORMATION*

#### **10B.01 Print**

Report a single figure that includes the following:

Books in print. Books are non-serial printed publications (including music and maps) that are bound in hard or soft covers, or in loose-leaf format. Include non-serial government documents. Report the number of physical units, including duplicates. For small libraries, if volume data are not available, count the number of titles. Books packaged together as a unit (e.g., a 2-volume set) and checked out as a unit are counted as one physical unit.

#### **10B.02 Physical Audio**

These are materials circulated in a fixed, physical format on which sounds (only) are stored (recorded) and that can be reproduced (played back) mechanically, electronically, or both. Include records, audiocassettes, audio cartridges, audio discs (include audio CD-ROMs), audio-reels, talking books, and other sound recordings stored in a fixed, physical format. Do not include downloadable electronic audio files.

Report the number of units, including duplicates. Items packaged together as a unit (e.g. two audiocassettes for one recorded book) and checked out as a unit are counted as one physical unit.

#### **10B.03 Physical Video**

These are materials circulated in a fixed, physical format on which moving pictures are recorded, with or without sound. Electronic playback reproduces pictures, with or without sound, using a television receiver or computer monitor. Video formats may include tape, DVD and CD-ROM. Do not include downloadable electronic video files.

Report the number of units, including duplicates. Items packaged together as a unit (e.g. two DVDs for one movie) and checked out as a unit are counted as one physical unit.

#### **10B.04 Children's Print**

This includes all materials for the ages of 0-11, consisting primarily of words and usually produced by making an impression with ink on paper. Included in this category are materials that did not require magnification: books, bound periodicals, government documents, Braille material, ephemeral material, and the like. Exclude current serial subscriptions and microforms.

#### **10B.05 Other Children's**

All materials for ages 0-11 in any other format, for example: current serial subscriptions, microforms, machine readable materials, audiovisual materials and all other categories.

### *EXPENDITURES AND SUBSCRIPTIONS*

#### **10B.06 Expenditures (Children's Print)**

These are expenditures for all materials for the ages 0-11, consisting primarily of words and usually produced by making an impression with ink or paper. Included in this category are materials that did not require magnification: books, bound periodicals, government documents, Braille material, ephemeral print materials, and the like. Exclude current serial subscriptions and microforms.

#### **10B.07 Expenditures (Other Children's)**

Expenditures for all materials for ages 0-11 in any other format, for example: current serial subscriptions, microforms, machine readable materials, audiovisual material and all other categories.

#### **10B.08 Current Print Serial Subscriptions**

Current serial subscriptions are arrangements by which, in return for a sum paid in advance, serials are provided for a specific number of issues. Include current serial subscriptions in print, electronic, and digital formats.

Report the number of current print serial subscriptions, including duplicates, for all outlets. Examples of serials are periodicals (magazines), newspapers, annuals, some government documents, some reference tools, and numbered monographic series.

#### *LIBRARY AVAILABILITY*

##### **10B.09 Public Service Hours per Year**

This is the number of annual public service hours for outlets (reported individually by central, branch, bookmobile and Books-by-Mail Only).

Note: Include the **actual** hours open for public service for centrals, branches, and bookmobiles, and Books-by-Mail Only. For each bookmobile, count only the hours during which the bookmobile is open to the public. For administrative entities that offer ONLY books-by-mail service, count the hours that the outlet is staffed for service. Minor variations in public service hours need not be included. Extensive hours closed to the public due to natural disasters or other events should be excluded from the count.

##### **10B.10 Number of Weeks a Library is Open**

This is the number of weeks during the year that an outlet was open to the public.

Note: Include the number of weeks open for public service for centrals, branches, bookmobiles, and Books-by-Mail Only. For each bookmobile, count only the weeks during which the bookmobile is open to the public. For administrative entities that offer ONLY books-by-mail service, count the weeks that the outlet is staffed for service. The count should be based on the number of weeks that a library outlet was open for half or more of its scheduled service hours. Extensive weeks

closed to the public due to natural disasters or other events should be excluded from the count. **Do not** calculate based on total number of service hours per year at the outlet level. For example, by dividing total hours by 52 (weeks), round to the nearest whole number of weeks. If the library was open half or more of its scheduled hours in a given week, round up to the next week. If the library was open less than half of its scheduled hours, round down.

##### **10B.11 Library Visits per Year**

This is the total number of persons entering the library for whatever purpose during the year.

Note: If an actual count of visits is unavailable, determine an annual estimate by counting visits during a typical week in October and multiplying the count by 52. A “typical week” is a time that is neither unusually busy nor unusually slow. Avoid holiday times, vacation periods for key staff, or days when unusual events are taking place in the community or the library. Choose a week in which the library is open its regular hours. Include seven consecutive calendar days, from Sunday through Saturday (or whenever the library is actually open).

#### *REFERENCE AND CIRCULATION TRANSACTIONS*

##### **10B.12 Reference Transactions**

A reference transaction is an information contact which involves the knowledge, use, recommendations, interpretation, or instruction in the use of one or more information sources by a member of the library staff. It includes information and referral services. Information sources include printed and non-printed materials, machine-readable databases, catalogs and other holding records, and, through communication or referral, other libraries and institutions and people inside and outside the library. The request may come in person, by phone, by fax, or by mail, electronic mail, or through live or networked electronic reference service from an adult, a young adult, or a child.

Do not count directional transactions or questions of rules or policies. Examples of directional transactions are “Where are the children’s books?” and “I’m looking for a book with the call number 811.2G.” An example of a question of rules or policies is “Are you open until 9:00 tonight?”

Note: If an annual count of reference transactions is unavailable, determine an annual estimate by counting reference transactions during a typical week in October and multiply the count by 52. A “typical week” is a time that is neither unusually busy nor unusually slow. Avoid holiday times, vacation periods for key staff, or days when unusual events are taking place in the community or in the library. Choose a week in which the library is open its regular hours. Include seven consecutive calendar days, from Sunday through Saturday (or whenever the library is usually open).

**10B.13 Circulation Transactions (Physical)**

The total annual circulation of all physical library materials of all types, including renewals.

Note: Count all physical materials in all formats that are charged out for use outside the library. Interlibrary loan transactions included are only items borrowed for users. Do not include items checked out to another library.

**10B.14 Circulation Transactions (Children's Materials)**

This is the total annual circulation of all children's materials in all formats to all users, including renewals.

*LIBRARY PROGRAMS*

A program is any planned event which introduces the group attending to any of the broad range of library services or activities or which directly provides information to participants. Programs may cover use of the library, library services, or library tours. Programs may also provide cultural, recreational, or educational information, often designed to meet a specific social need. Examples of these types of programs include film showings, lectures, story hours, literacy, English as a second language, citizenship classes, and book discussions.

Count all programs, whether held on or off-site, that are sponsored by or co-sponsored by the library. Exclude programs sponsored by other groups that use library facilities.

If programs are offered as a series, count each program in the series. For example, a film series offered once a week for eight weeks should be counted as eight programs.

Note: Exclude library activities delivered on a one-to-one basis, rather than to a group, such as a one-to-one literacy tutoring, services to homebound, resume writing assistance, homework assistance, and mentoring activities.

**10B.15 Library Programs for Children (0-5)**

This is the number of programs held for children ages 0-5.

**10B.16 Library Programs for Children (6-11)**

This is the number of programs held for children ages 6-11.

**10B.17 Library Programs for Children (0-11)**

This number is not automatically calculated, so you may enter a number here even if you have entered one for the previous two questions.

A children's program is any planned event for which the primary audience is children and which introduces the group of children attending to any of the broad range of library services or activities for children or which directly provides information to participants. Children's programs may cover use of the library, library services, or library tours. Children's programs may also provide cultural, recreational, or educational information, often designed to meet a specific social need. Examples of these types of programs include story hours and summer reading events.

Count all children's programs, whether held on or off-site, that are sponsored or co-sponsored by the library. Do not include children's programs sponsored by other groups that use library facilities. If children's programs are offered as a series, count each program in the series. For example, a story hour offered once a week, 48 weeks a year, should be counted as 48 programs. Exclude library activities for children delivered on a one-to-one basis, rather than to a group, such as one-to-one literacy tutoring, services to homebound, homework assistance, and mentoring activities.

**10B.18 Library Programs for Young Adults (12-18)**

This is the number of programs held for young adults between the ages of 12-18.

A young adult program is any planned event for which the primary audience is young adult and which introduces the group of young adults attending to any of the broad range of library services or activities for young adults or which directly provides information to participants. Young adult programs may cover use of the library, library services, or library tours. Young adult programs may also provide cultural, recreational, or educational information, often designed to meet a specific social need. Examples of these types of programs include book clubs and summer reading events.

Count all young adult programs, whether held on or off-site, that are sponsored or co-sponsored by the library. Do not include young adult programs sponsored by other groups that use library facilities. If young adult programs are offered as a series, count each program in the series. For example, a book club offered every two weeks, 24 weeks a year, should be counted as 24 programs. Exclude library activities for young adults delivered on a one-to-one basis, rather than to a group, such as one-to-one literacy tutoring, services to homebound, homework assistance, and mentoring activities. This figure is a subset of the Total Number of Library Programs.

**10B.19 Library Programs for Adults (19 and Up)**

This is the number of programs held for adults ages 19 and up.

**10B.20 Total: Library Programs (Calculated)**

This is the calculated total for all programs entered.

*LIBRARY PROGRAM ATTENDANCE*

**10B.21 Children's Program Attendance (0-5)**

This is the total attendance at children's programming for kids 0-5.

**10B.22 Children's Program Attendance (6-11)**

This is the total attendance at children's programming for kids 6-11.

**10B.23 Children's Program Attendance (0-11)**

This number is not automatically calculated, so you may enter a number here even if you have entered one for the two questions above.

The count of the audience at all programs for which the primary audience is children 11 years and under. Include adults who attend programs intended primarily for children.

Note: Do not count attendance at library activities for children that are delivered on a one-to-one basis, rather than to a group, such as one-to-one literacy tutoring, services to homebound, homework assistance, and mentoring activities.

**10B.24 Young Adults Program Attendance (12-18)**

This is the number of people in attendance at programming for young adults ages 12-18.

The count of the audience at all programs for which the primary audience is young adults aged 12 to 18 years and includes 18 year olds. Include adults\* who attend programs intended primarily for young adults.

Note: Do not count attendance at library activities for young adults that are delivered on a one-to-one basis, rather than to a group, such as one-to-one literacy tutoring, services to homebound, homework assistance, and mentoring activities.

\*Please count all patrons that attend the young adult programs regardless of age.

**10B.25 Adult Program Attendance (19 and Up)**

This is the count of the audience at all programs for which the primary audience is adults. Include young adults and children who attend the programs intended primarily for adults.

**10B.26 Total: Library Programs Attendance (Calculated)**

This is the calculated value for all program attendance entered.

*COMPUTER INFORMATION*

**10B.27 Number of Internet Computers Used by General Public**

Report the number of the library's Internet computers [personal computers (PCs) and laptops], whether purchased, leased, or donated, used by the general public in the library.

**10B.28 Uses (Sessions) of Public Internet Computers per Year**

Report the total number of uses (sessions) of the library's Internet computers in the library during the last year. If the computer is used for multiple purposes (Internet access, word-processing, OPAC, etc.) and Internet uses (sessions) cannot be isolated, report all usage. A typical week or other reliable estimate may be used to determine the annual number. Sign-up forms or Web-log tracking software also may provide a reliable count of uses (sessions).

Note: The number of uses (sessions) may be counted manually, using registration logs. Count each use (session) for public internet computers, regardless of the amount of time spent on the computer. A use (session) on the library's public internet computer(s) three times a year would count as three uses (sessions). Software such as "Historian" can also be used to track the number of uses (sessions) at each public internet computer. If the data element is collected as a weekly figure, multiply that figure by 52 to annualize it.

Reminder: This count includes only the library's Internet computers. DO not include Wi-Fi access using non-library computers.

**SECTION 10C: OUTLET DATA (TOTAL)**

This section allows you to check that you have entered all outlet data for collections and programs, and that it adds up to your library system total. You cannot edit these measures here; you must go back to the outlet records and correct them there. If there are edit checks, you will be prompted to respond here after you hit Verify or Final Submittal.
