The Secret Language of Books
A Guide to Appeal

2nd edition
now with character appeal

© 2015 NovelList
Welcome

Appeal—the “chemistry” of readers’ advisory—is a way of determining why people enjoy the books they read. Some readers already have a good vocabulary for talking about the books they love, while some do better talking about books they never want to read again. Framing these conversations in appeal is the foundation for helping people find what to read next.

When we added appeal terms to NoveList in 2010 (building on the groundwork laid by people like Joyce Saricks, Nancy Pearl, and Neal Wyatt), we envisioned a vocabulary that would grow and change in response to readers, librarians, and the world of books. With this “second edition,” we are excited to introduce a few fun changes, including character appeal!

Our character appeal vocabulary is not intended to be an exhaustive list of character types or character names—we have subject headings for that. Instead, we decided to talk broadly about how fiction authors handle characterization as a whole—are the characters likeable? Flawed? Does the reading experience involve intimate knowledge of the characters, or are they appealing but not especially complex? Snarky and quirky, or brooding and introspective? If you don’t mind spoilers, you can even search for unreliable narrators!

This edition also reflects the regular and ongoing changes that we make to our appeal vocabulary—we sometimes broaden or narrow the reading levels of given terms (there really are some darkly humorous books for preschoolers!).

We spend a lot of time evaluating our appeal cataloging, and we welcome feedback from all librarians and readers who are willing to share with us. Seriously! My email address is vcaplinger@ebsco.com—bring on your suggestions & questions!

Happy reading—there’s a whole multiverse out there!

Starter Questions
Use these to start conversations with readers

Can you tell me about a book you've read and enjoyed?

What movies and TV shows have you enjoyed?

Which of your favorite authors or series do you wish had a new book?

What are you in the mood for today?
Pace is the rate at which a story unfolds for the reader. We identify books at either end of the spectrum. We also tag those that start slowly, then accelerate as the story progresses.

**Fast-paced:**
Events in these exciting books unfold rapidly, moving the reader quickly through the story.

**Intensifying:**
These books gradually build in momentum throughout the story, resulting in a gripping conclusion.

**Leisurely paced:**
Due to descriptive language, focus on detail, or careful development of character or setting, these books unfold slowly, allowing the reader to savor the narrative.

Why so few pace terms? According to Neal Wyatt, nobody’s really looking for “medium-paced” books – it’s only an active appeal when it stands out on the spectrum.
Making Comparisons

Use comparisons to dig deeper into reading preferences. Do you prefer action-packed or character-driven stories? Fast or leisurely paced? Heartwarming and homespun, or disturbing and creepy?
Storyline is a quick way to determine a book’s focus and structure.

**Action-packed**
Pulse-pounding, high-octane excitement is the rule!

**Character-driven**
Interior growth and development of characters is important.

**Intricately plotted**
These books have intricate, complicated, or elaborate storylines, often involving multiple plots or numerous narrative twists and turns. *

**Issue-oriented**
Issue-oriented books explore controversial themes, which may cover emotional, ethical, or social problems.

**Nonlinear**
Instead of being portrayed chronologically, events in these books shift between time periods.

**Open-ended**
Instead of providing answers, these books invite readers to ponder events long after the last page.

**Plot-driven**
Events rather than characters propel these stories forward.

**Sweeping**
These sprawling stories span decades or generations and frequently include multiple locations and historical events. *

**World-building**
These books immerse the reader in vivid imaginary worlds of invented histories, languages, geography, or cultures.

Strong sense of place
Powerfully depicted locales—real or imaginary—come alive and give a good sense of what makes a place unique.

Suspenseful
Ranging in intensity from subtle psychological unease to nail-biting suspense, these books keep readers on edge.

Sweet
With a light tone and appealing innocence, these endearing books are cute, playful, and otherwise delightful.

Thought-provoking
More than just telling a story, these books take on big ideas—anything from philosophical quandaries to time paradoxes.

Upbeat
These fun books are lighthearted, hopeful, and optimistic.

Violent
Not for the faint of heart, these books contain explicit or graphic violence.

Whimsical
These fanciful and playful books will charm and enchant readers, and often include fairy tales or other elements of fantasy.

For readers with a passion for place, direct them to books with a strong sense of place, and then pair it with a subject heading for a location—anything from Paris to Westeros to St. Petersburg!
Middle-schooler Greg is undeniably **sarcastic**, but that’s precisely the reason why these books are so entertaining.

Readers are kept guessing about the true nature of Amy Dunne, but her **twisted** character makes for a thrilling story.

Auggie Pullman, who struggles with being “different” from other kids, is a great example of **ability diverse** characters.
All New

Only applied to fiction books, character appeal is especially for those readers who love books because of the characters.

**Ability diverse**
These characters live with physical, mental, or emotional conditions that can often be challenging.

**Anthropomorphic**
From cats solving mysteries to crayons quitting their day jobs, the non-human characters in these books offer a unique perspective. *

**Authentic**
These characters behave in ways that accord with their age, nationality, and backgrounds.

**Awkward**
Often unsure of themselves, these characters lack the social savvy to navigate relationships and other interpersonal situations smoothly.

**Believable**
These characters ring true for young readers, and behave in ways that are consistent with their age and backgrounds.

**Brooding**
Haunted by past traumas or mistakes, these morose characters contemplate (and often must confront) what is wrong in the world.

**Character duos**
From best friends to odd couples, these books feature dynamic duos who take on the world together! *

Audience(s) this term applies to:

- Adults
- Teens
- Ages 9-12
- Ages 0-8
Complex
Intriguing and complicated, these multi-dimensional characters have conflicting motivations and desires.

Courageous
These brave and often self-sacrificing characters have strong convictions and face challenges with determination, despite the odds against them.

Culturally diverse
These books may feature characters from racial and ethnic minorities living in the United States, Europe, Canada, or Australia, as well as characters from non-white cultural groups living in other parts of the world.

Exaggerated
These larger-than-life characters often delight readers by adding to the humor or uniqueness of a story.

Flawed
These characters do not always act in their own best interests, and their sometimes misguided decisions form a central theme in the story.

Introspective
These characters examine their own feelings, thoughts, and motives, and what they find often has major repercussions for the story.

Large cast of characters
Whether because of sprawling storylines, epic scopes, or intricate plots, these books contain lots of characters—how well readers get to know them depends on the author.*
Character

**LGBTQIA diverse**
Identifying as lesbian, gay, bisexual, transgender, queer, intersex, asexual, or just questioning, these characters are not stereotypes and are important to the story (even if in a secondary role).

**Likeable**
These appealing characters engage readers, and are likeable despite flaws.

**Mischievous**
These child characters frequently get into trouble or cause minor disasters due to their curiosity or intentional disregard for the rules.

**Quirky**
Eccentric and idiosyncratic, these characters range from peculiar to bizarre, and generally add to the charm or humor of the stories in which they appear.

**Relatable**
Because their emotions and experiences are recognizable, readers are able to identify with these characters and their dilemmas.

**Religiously diverse**
These characters follow or have a background in a religion other than Christianity. While their active level of involvement in the religion may vary, the character’s religious beliefs are an important element in the story.

---

Responding to the recent call for more diversity (#weneeddiversebooks) in children’s literature, we call out different kinds of diversity in our character appeal terms. Look for **ability diverse**, **culturally diverse**, **LGBTQIA diverse**, and **religiously diverse** characters.
**Character**

**Sarcastic**
These young characters sometimes employ sarcasm for humor, and sometimes to respond to difficult or challenging situations.

**Sassy**
These books feature characters (usually women) with outsized personalities and a bottomless well of one-liners and comebacks.

**Snarky**
These characters employ sarcasm, irony, and biting wit in their approach to life (and often have fun with it!).

**Spirited**
These lively characters are full of energy and vigor.

**Spunky**
Feisty and scrappy, these characters have pluck and determination.

**Strong female**
Whether catching criminals or saving the world, these take-charge women and girls are at the top of their game.

**Sympathetic**
While sometimes dealing with difficult situations or making poor decisions, these characters are presented in such a way that readers empathize with them.

**Twisted**
Deviant and often unsettling, these characters push the boundaries of literature through behavior that ranges from disturbing to illegal.
**Unlikeable**
Deliberately painted in an unflattering light, these characters will not gain the sympathy of readers, so there is less emotional investment if and when bad things happen to them.

**Unreliable narrator**
Readers may not be able to trust the version of events narrated to them in these complex and sometimes disturbing stories.

**Well-developed**
Sometimes appearing in more plot-driven stories, these characters rise above others in the strength of their development.

Have a reader who doesn’t mind going to some uncomfortable places? Try books with **unlikeable** or **twisted** characters, or with **unreliable narrators**.
Different Writing Styles

Appeal helps compare very different styles ...

**Lyrical**

I am born not long from the time
or far from the place
where
my great-great-grandparents
worked the deep rich land
unfree
dawn till dusk
unpaid
drank cool water from scooped out gourds
looked up and followed
the sky’s mirrored constellation
to freedom.

Different kinds of Illustrations

Need a storytime book? **Big and bold** illustrations can be seen from across a crowd. **Detailed** books give young readers a chance to pore over the pictures. **Colorful** books can also be eye-catching!
Both picture books and graphic novels have a unique set of qualities important to their readers, from color and drawing style to the mood evoked by the illustrations.

Abstract
These illustrations deliberately distort perspective and proportion so that objects and people are removed from reality.

Big and bold
The contrast between bright colors and bold lines make the pictures visible from a distance. A great choice for storytime!

Black-and-white
The artwork is in black and white only, and may range from pen and ink drawings to watercolor-like effects in shades of gray.

Bold
The artwork consists of simple, basic, or block-like shapes, and the lines are dark, distinct, or thick.

Cartoony
This style features characters drawn with exaggerated, simplified features. Often humorous, it can be used to lighten difficult themes.

Charming
The illustrations are often cute and playful, and offer visual support for the light or upbeat tone in a story.

Colorful
The full-color illustrations in these books feature vibrant colors. The artwork may vary widely, but the color palette is vivid.

Dark
Often used for emphasis in stories with a bleak, menacing, or serious tone, these illustrations are full of shadows and dark corners.
Delicate
Deft and fine in texture or structure. Lines are thinly drawn, and the effect of these pictures is subtle.

Detailed
Complex illustrations offer readers the chance to pore over pictures.

Folk-art style
Recognized by its flat perspective, simplified or stylized shapes, and dramatic use of color.

Impressionistic
These evocative illustrations use soft lines, reflected light, and color to capture a sensory, emotion-filled impression of a scene or an object.

Inventive
These creative books challenge the reader’s perceptions with non-standard use of illustrative elements (including line, panels, or color).

Lavish
Whether through use of color, line, or detail, these illustrations are elaborate, sumptuous, and striking.

Minimally colored
Featuring a limited color palette; can be two-toned, black-and-white, or grayscale with one or two brighter colors used as an accent.

Muted
The subtle color may have a washed out or subdued quality. This restraint in the use of color often serves to set the tone of the story.

Nightmarish
Deliberately ugly, frightening, or unpleasant. Most likely to accompany a storyline that is also unpleasant.
